

Dear Chair Martin and Council members of Honolulu.:

As a current Board member with the Friends of Honolulu Botanical Gardens, past president of the Friends of Honolulu Botanical Gardens, past president of the American Society of Landscape Architects, and a Fellow of ASLA, I strongly support a FD 1 to Bill 13 to provide planning funds to implement having a Chinese Garden in the Foster Botanical Garden. We are honored to have a 14 acre botanical garden in the middle of our growing Honolulu City and adding a Chinese Garden would be a great addition to our treasured gardens. Thank you for your support.
